IFRSs, the standards set by the International Accounting Standards Board (IASB), are complex and sometimes obscure. Understanding their implications and applying them appropriately requires something special; and that is why International GAAP 2016 is the essential tool for anyone applying, auditing, interpreting, regulating, studying and teaching international financial reporting. It provides expert interpretation and practical guidance for busy professionals, and includes, in every chapter, detailed analysis of how complex financial reporting problems can be resolved appropriately and effectively. The International Financial Reporting Group of Ernst & Young includes financial reporting specialists from throughout the world. Complex technical accounting issues are explained clearly in a practical working context that enables immediate understanding of the point at issue. International GAAP 2016 is the only globally focused work on IFRSs. It is not constrained by any individual country's legislation or financial reporting regulations, and it ensures an international consistency of approach unavailable elsewhere. It shows how difficult practical issues should be approached in the complex, global world of international financial reporting, where IFRSs have become the accepted financial reporting system in more than 100 countries. This integrated approach provides a unique level of authoritative material for anyone involved in preparing, interpreting or auditing company accounts, for regulators, academic researchers and for all students of accountancy. All aspects of the detailed requirements of IFRS are dealt with on a topic-by-topic basis. Each chapter of International GAAP 2016 deals with a key area of IFRS and has a common structure for ease of use: • An introduction to the background issues • An explanation of relevant principles • A clear exposition of the requirements of IFRS • A discussion of the implications in practice and possible alternative solutions available • Worked examples • Extracts from real company accounts • A full listing of the required disclosures

The EU's adoption of International Financial Reporting Standards has necessitated a significant shift from national accounting standards. IAS 32 and 39 are the most complex. Applying International Financial Reporting Standards: Financial Instruments breaks down the intricacies of IAS 32 and IAS 39 into a step-by-step approach, explaining the requirements of the standards and how to apply them. Worked examples throughout cover a range of possibilities from straightforward situations to complex issues encountered by multi-national enterprises. Vital areas covered include: how to classify financial assets into the four types defined by the standards, and what treatment is applicable for each type; approaches to determining fair value for these instruments; hedge accounting - where and when this is permitted; how to present financial instruments, their losses and gains, in the balance sheet and profit and loss; where these standards differ from UK and US GAAP. Written by Ian Hague, an industry expert who has been closely involved with the development of the standards, Applying International Financial Reporting Standards: Financial Instruments is an invaluable reference book for anyone preparing, auditing or using financial statements.
