"This study examines the historical development, social, political and economic significance of gospel music in Zimbabwe. It approaches music with Christian theological ideas and popular appeal as a cultural phenomenon with manifold implications. Applying a history of religious approach to the study of a widespread religious phenomenon, the study seeks to link religious studies with popular culture. It argues that gospel music represents a valuable entry point into a discussion of contemporary African cultural production. Gospel music successfully blends the musical traditions of Zimbabwe, influences from other African countries, and music styles from other parts of the world."--BOOK JACKET. Offering a unique and original perspective on the rise and fall of indigenous states of southern Zambezia, *The Zimbabwe Culture* analyzes the long contentious history of the remains of the remarkable cyclopean masonry, ranging from mighty capitals of traditional kings to humble farmsteads. Forming a cornerstone of the geographical lore of Africa in the seventeenth and eighteenth centuries, debate on the origins, development, and collapse of the Zimbabwe culture has never ceased, and with increasing archaeological research over the twentieth century, has become more complex. Thoroughly examining the growth and decline of pre-colonial states on the entire Zimbabwean Plateau and southern Zambezia, Dr. Pikirayi has contributed tremendously towards the archaeological understanding of this extraordinary culture. *The Zimbabwe Culture* is essential reading for all students and avocationalists of African archaeology, history, and culture.

The position and treatment of women in every religion, culture, and society have been subjects of concern for a long time. In every society, women fight for their emancipation from exploitive and oppressive patriarchal structures. The most contentious issues include domestic violence, gender discrimination and inequality in the areas of employment, leadership, and marriage. Domestic violence tops the list and is the worst enemy of any progressive and democratic society. It dehumanizes, disfigures, and demeans its victims and survivors. Shona Women in Zimbabwe--a Purchased People explores the causes of domestic violence--the cultural practice of bridewealth, in particular--and assesses the extent to which it contributes to the proliferation of domestic violence among the Shona people of Zimbabwe. It then explores the Christian traditions, particularly, the Roman Catholic Church, in search of resources that can be used to emancipate Shona women from patriarchal subjugation. Finally, the book offers a pastoral response that is informed by the experiences of the Shona women, their cultural resources, and the Roman Catholic religious tradition.

A meaningful and sustainable interpretation of decorative symbols found on Zimbabwe's items of material culture among the various ethnic groups is one that recognizes their fundamental cosmologies, world-views, beliefs, axiologies and epistemologies relating to nature, the universe, interpersonal and inter-group relations and, above all, the critical goals that a community seeks to attain. Where there is a community there must, of necessity, be communication channels that ensure social cohesion and commitment to one vision and mission. Geometric decorative symbols, which are the subject of this book, belong to the visual arts, a genre that communicates fundamental messages effortlessly and beautifully! Aesthetics, cosmology and axiology combine within the context of a functional object and effectively express a community's total culture. At one time long ago, functionality and aesthetics were Siamese twins, intricately woven into one. However, over time resident meanings and messages were lost while aesthetic traditions, on account of their appeal and allure, continued, albeit limping on one leg, without their original partner--the underlying message being conveyed for posterity. This book seeks to capture the lost messages that are resident in the decorative symbols, apparently all of which carry the same meaning--one of CONTINUITY. Diversity of expression does not take away Africa's main preoccupation which is ensuring the continuity of the natural environment on the one hand and the family lineage, community and society on the other.
