Rich in intrigue and scheming, love and lust, Sherry Jones' s vibrant historical novel follows four women destined to sway the fate of nations and the hearts of kings... Amid the lush valleys and fragrant wildflowers of Provence, Marguerite, El é onore, Sanchia, and Beatrice have learned to charm, hunt, dance, and debate under the careful tutelage of their ambitious mother—and to abide by the countess' s motto: " Family comes first. " With Provence under constant attack, their legacy and safety depend upon powerful alliances. Marguerite' s illustrious match with the young King Louis IX makes her Queen of France. Soon El é onore—independent and daring—is betrothed to Henry III of England. In turn, shy, devout Sanchia and tempestuous Beatrice wed noblemen who will also make them queens. Yet a crown is no guarantee of protection. Enemies are everywhere, from Marguerite' s duplicitous mother-in-law to vengeful lovers and land-hungry barons. Then there are the dangers that come from within, as loyalty succumbs to bitter sibling rivalry, and sister is pitted against sister for the prize each believes is rightfully hers—Provence itself. From the treacherous courts of France and England, to the bloody tumult of the Crusades, Sherry Jones traces the extraordinary true story of four fascinating sisters whose passions, conquests, and progeny shaped the course of history.

David Crystal's classic English as a Global Language considers the history, present status and future of the English language, focusing on its role as the leading international language. English has been deemed the most 'successful' language ever, with 1500 million speakers internationally, presenting a difficult task to those who wish to investigate it in its entirety. However, Crystal explores the subject in a measured but engaging way, always backing up observations with facts and figures. Written in a detailed and fascinating manner, this is a book written by an expert both for specialists in the subject and for general readers interested in the English language.

The Global Innovation Index 2020 provides detailed metrics about the innovation performance of 131 countries and economies around the world. This accessible textbook is the only introduction to linguistics in which each chapter is written by an expert who teaches courses on that topic, ensuring balanced and uniformly excellent coverage of the full range of modern linguistics. Assuming no prior knowledge the text offers a clear introduction to the traditional topics of structural linguistics (theories of sound, form, meaning, and language change), and in addition provides full coverage of contextual linguistics, including separate chapters on discourse, dialect variation, language and culture, and the politics of language. There are also up-to-date separate chapters on language and the brain, computational linguistics, writing, child language acquisition, and second-language learning. The breadth of the textbook makes it ideal for introductory courses on language and linguistics offered by departments of English, sociology, anthropology, and communications, as well as by linguistics departments.

This novel, banned shortly before publication in Sept '08 by Random House, attracting British and world-wide media attention, tells for the first time the moving but little known love story between Mohammed and his favoured wife Ai'sha.
