As indicated, Even Stevens likes everything to be in even numbers while Odd Todd likes when things are in odd numbers. The two tend to get on each others nerves. This book is a fun book with numbers throughout. While I do understand the concept they are trying to bring out, this book is best understood by children who already know odd and even number.

If the number rolled is even, Even Steven gets to move one place. If the number is odd, Odd Todd gets to move one place. The winner is the first one to get to the finish line. You may like to extend this game by having your students roll two or three dice, adding/multiplying them together and then deciding if the number is odd or even.
