James Franco - IMDb

Francisco Franco - Francisco Franco - Franco's dictatorship: Although Franco had visions of restoring Spanish grandeur after the Civil War, in reality he was the leader of an exhausted country still divided internally and impoverished by a long and costly war. The stability of his government was made more precarious by the outbreak of World War II only five months later.

Francisco Franco - Franco's dictatorship | Britannica

Francisco wanted to honour generals from the Nationalist side by ascribing their names to various locations, and most still retain these names. Such is the case of San Leonardo de Yagüe, where General Juan Yagüe was born, or Alcocero de Mola, where General Emilio Mola died in a plane crash during the war.

Symbols of Francoism - Wikipedia

Francoist Spain (Spanish: España franquista), which was officially known as the Spanish State (Spanish: Estado Español) and in Spain as the Francoist dictatorship (Spanish: dictadura franquista), is the period of Spanish history between 1936 and 1975, when Francisco Franco ruled Spain with the title Caudillo.. The nature of the regime evolved

40 years. In this book, Enrique Moradiellos redraws Franco in three dimensions - Franco, the man; Franco, the Caudillo and Franco's Spain. In so doing, he offers a reappraisal of Franco's personality, his leadership style and the nature of the regime that he established and led until his death. As a dictator who established his power prior to World War II and maintained it well into the 1970s, Franco was one of the most central figures of twentieth-century European history. In Spain today, he is a spectre from a regrettable recent past, uncomfortable yet still very real and significant. Although a relatively minor dictator in comparison with Mussolini, Hitler or Stalin, Franco was more fortunate than them in terms of survival, long-lasting influence and public image. A study of his regime and its historical evolution sheds new light on fundamental questions of European history, including the social and cultural bases for totalitarian or authoritarian challenges to democracy and sources of political legitimacy grounded in the charisma of a leader. In this book, Enrique Moradiellos Garcia examines the dictatorship as well as the dictator and, in doing so, reveals new aspects to our understanding of General Franco, the Caudillo.

Chronicles the life and rule of the Spanish dictator, from his early years to his military career to his leadership of the nation.

In this book, Enrique Moradiellos Garcia examines the dictatorship as well as the dictator and, in doing so, reveals new aspects to our understanding of General Franco, the Caudillo.

What is left of Francisco Franco's legacy in Spain today? Franco ruled Spain as a military dictator from 1939 until his death in 1975. In October 2019, his remains were removed from the massive national monument in which they had been buried for forty-four years. For some, the exhumation confirmed that Spain has long been a modern, consolidated democracy. The reality is more complicated. In fact, the country is still deeply affected—and divided—by the dictatorial legacies of Francoism. In one short volume, *Exhuming Franco* covers all major facets of the Francoist legacy today, combining research and

Acces PDF Franco

analysis with reportage and interviews. This book is critical of Spanish democracy; yet, as the final chapter makes clear, Spain is one of many countries facing difficult questions about a conflictive past. To make things worse, the rise of a new, right-wing nationalist revisionism across the West threatens to undo much of the progress made in the past couple of decades when it comes to issues of historical justice.

Francisco Franco and the Spanish Civil War is a wide-ranging and insightful analysis of the origins, course, and consequences of the conflict and of Franco's role within it. It offers a broad view of the war through a survey of the social and cultural dimensions, as well as the military and political ones. In particular, it traces Franco's meteoric rise to power, his conduct in the war, and his long subsequent rule. This authoritative introduction illuminates the many different interpretations of the conflict by examining a variety of perspectives. Franco and the Spanish Civil War places the war in its national and global contexts, exploring both nationalist and republican points of view, and giving attention to foreign participation in the conflict.

Examines three Latin fascist tyrants--Mussolini, Franco, and

Salazar--and shows how they perpetuated their rule.

Between 1840 and 1930, approximately 900,000 people left Quebec for the United States and settled in French-Canadian colonies in New England's industrial cities. Yves Roby draws from first-person accounts to explore the conversion of these immigrants and their descendants from French-Canadian to Franco-American. The first generation of immigrants saw themselves as French Canadians who had relocated to the United States. They were not involved with American society and instead sought to recreate their lost homeland. The Franco-Americans of New England reveals that their children, however, did not see a need to create a distinct society. Although they maintained aspects of their language, religion, and customs, they felt no loyalty to Canada and identified themselves as Franco-American. Roby's analysis raises insightful questions about not only Franco-Americans but also the integration of ethno-cultural groups into Canadian society and the future of North American Francophonies.
