Master times tables in just 10 minutes a day with the activities in this essential home-study workbook from Carol Vorderman. 10 Minutes a Day Times Tables is a homeschool learning resource that teaches kids time tables in bite-sized chunks. Children prefer to learn in short bursts, making this workbook from Carol Vorderman the perfect homeschool introduction to Maths. Games and tests make learning fun, leading to maximum results in just 10 minutes a day. This workbook includes lots of multiplication practice and many word problems that relate to real-life experiences. The parents' notes section gives the answers, explains common pitfalls, and gives guidance on how to avoid them. 10 Minutes a Day workbooks are the perfect at-home reinforcement for subjects learned in school and support the National Curriculum.

This book is your comprehensive workbook for 6th Grade Common Core Math. By practicing and mastering this entire workbook, your child will become very familiar and comfortable with the state math exam and common core standards. This 6th Grade Common Core Math Workbook (Free Response) includes: - 20 Weeks of Daily Multiple Choice Practice - Weekly Assessments - State Aligned Common Core Curriculum - End of Year Assessment For practice with Multiple Choice questions, be sure to check out Part I of our workbook titled: Argo Brothers Math Workbook, Grade 6: Common Core Multiple Choice (6th Grade) 2017 Edition Each question is labeled with the specific common core standard so both parents and teachers can use this workbook for their student(s). This workbook takes the Common Core State Standards and divides them up among 20 weeks. By working on these problems on a daily basis, students will be able to (1) find any deficiencies in their understanding and/or practice of math and (2) have small successes each day that will build competence and confidence in their abilities.

An accessible guide to an increasingly complex subject, Entrepreneurial Finance: Concepts and Cases demonstrates how to address often- overlooked financial issues from the entrepreneur's standpoint, including challenges faced by start-ups and small businesses. This new edition retains the original's structure, around seven modules or building blocks designed to be taught across a full semester with natural break points built into each chapter within the modules. The building blocks present macro- concepts which are explored in greater detail in each of the chapters. Each concept is illustrated by a short case and followed by thoughtful questions to enhance learning. The cases are new or fully updated for the second edition, and deal with real companies, real problems, and currently unfolding issues. A new chapter on business models includes coverage of social ventures, and the chapters on forms of business ownership and financing have been expanded. Upper- level undergraduate students of entrepreneurship will appreciate the book's practical approach and engaging tone, along with the hands- on cases and exercises that help students to break down complex concepts. Online resources for instructors include a case teaching manual, lecture slides, test bank, and interactive exercises.

In difficult times, what children really need is hope. This collection, packed with short stories, poems, essays and pictures from the very best children's authors and illustrators, aims to provide just that. Within its pages you'll find animal friends from insects to elephants, high-flying grandmas, a homesick sprite, the tooth fairy, and even extra-terrestrial life. This new edition has 133 contributions from children's authors and illustrators, including Lauren Child, Anthony Horowitz, Catherine Johnson, Michael Morpurgo, Onjali Q. Raúf, Axel Scheffler and Jacqueline Wilson. A donation from every sale will go to NHS Charities Together, in gratitude for the incredible efforts of all those who worked in hospitals over the quarantine period. The following proceeds from this ebook will be donated to NHS Charities Together: 35% of publisher's net receipts or at least £1.00 per copy. NHS Charities Together is a charity registered in England and Wales (registered charity no. 1186569)

Epilepsy is the most common neurologic disorder in children, adults, and the elderly. The Epilepsy Foundation estimates that over 2.7 million people in the U.S have epilepsy, and an additional 181,000 new cases are diagnosed each year. Despite these numbers, epilepsy is often misunderstood. Individuals diagnosed with epilepsy face many difficulties and lifestyle changes. A proper understanding of epilepsy is a vital first step toward managing this disease and maintaining a normal life. Epilepsy: A Guide to Balancing Your Life is an excellent resource for individuals who are diagnosed with epilepsy. Sponsored by the American Academy of Neurology, it contains practical and reliable information written in layman's terms. Filled with helpful tables and illustrations, this guide will answer commonly asked questions about epilepsy, explain how it is diagnosed and treated both with medications and other treatment options. It also discusses: Diet Epilepsy and pregnancy Sports and epilepsy Surgical treatment The effects of epilepsy in different age groups And much more! Epilepsy: A Guide to Balancing Your Life is essential reading for all people with epilepsy seeking a better quality of life, and for family members and caregivers needing a better understanding of this condition.

TEACH YOUR STUDENTS TO READ LIKE CHAMPIONS—WITH RIGOR, INDEPENDENCE, PRECISION, AND INSIGHT The world we are preparing our students to succeed in is one bound together by words and phrases. Our students learn their literature, history, math, science, or art via a firm foundation of strong reading skills. When we teach students to read with precision, rigor, and insight, we are truly handing over the key to the kingdom. Of all the subjects we teach reading is first among equals. Grounded in advice from effective classrooms nationwide, enhanced with more than 40 video clips, Reading Reconsidered takes you into the trenches with actionable guidance from real-life educators and instructional champions. The authors address the anxiety-inducing world of Common Core State Standards, distilling from those standards four key ideas that help hone teaching practices both generally and in preparation for assessments. This 'Core of the Core' comprises the first half of the book and instructs educators on how to teach students to: read harder texts, 'closely read' texts rigorously and intentionally, read nonfiction more effectively, and write more effectively in direct response to texts. The second half of Reading Reconsidered reinforces these principles, coupling them with the 'fundamentals' of reading instruction—a host of techniques and subject specific tools to reconsider how teachers approach such essential topics as vocabulary, interactive reading, and student autonomy. Reading Reconsidered breaks an overly broad issue into clear, easy-to-implement approaches. Filled with practical tools, including: 44 video clips of exemplar teachers demonstrating the techniques and principles in their classrooms (note: for online access of this content, please visit my.teachlikeachampion.com) Recommended book lists Downloadable tips and templates on key topics like reading nonfiction, vocabulary instruction, and literary terms and definitions. Reading Reconsidered provides the framework necessary for teachers to ensure that students forge futures as lifelong readers.
