Learning English for Academic Purposes LEAP 2nd edition for English language learners preparing for study in Higher Education is now a two-book series focussing on key language skill development incorporating global issues material with academic content

LEAP: Reading and Writing aims to improve reading and writing skills with Academic Word List (AWL), vocabulary, grammar, academic survival skills, and final assignments that let learners apply what they learned in individual and personalized ways. Focus on critical thinking helps learners reflect on what they read to develop strategies that can be applied to writing. The Global Scale of English (GSE) structures LEAP's learning goals to give learners a clear idea of the language objectives they should aim to meet. Each chapter in the book focuses on engaging themes drawn from science, technology, engineering, and mathematics (STEM), as well as education and business fields. Each chapter includes three readings related to the chapter theme, often with divergent perspectives. Most of these readings are authentic and give learners a chance to apply their critical thinking skills. The writing component involves different types of paragraphs and other forms, including essays. Beyond the book, My eLab exercises and documents give learners the opportunity to reinforce and build on what they learn.

LEAP 4 - Listening and Speaking (CEFR Level C1) is a task-based textbook for students preparing for college or university studies in English. It encourages students to apply critical-thinking skills as they engage in academic listening and speaking tasks across a range of disciplines. Entirely authentic listening and speaking texts, including video lectures, prepare students for the college classroom, while thought-provoking content challenges them to reflect on contemporary global issues. Featuring text-based vocabulary and skills practice and a variety of structured speaking assignments, LEAP 4 - Listening and Speaking offers students the skills they need to thrive in the English academic world. Interesting and academic listening texts Three authentic listening texts per chapter (two audio excerpts and one video excerpt) from a variety of genres including debates, interviews, lectures, podcasts and speeches, mostly Canadian sources, prepare students for the lectures and presentations they will encounter in academic courses. Varied and challenging activities Focus on Listening sections provide opportunities to learn listening skills and strategies, accompanied by well-structured and challenging activities to help students improve their ability to deal with university-level lectures and presentations. Linear and guided speaking tasks Warm-Up and Final Assignments integrate a process approach, as well as a genre approach, to guide students in preparing various types of presentations. Focus on Speaking activities develop more specific speaking skills, which students reinvest in the assignments. Academic vocabulary development Key words and vocabulary from the Academic Word List are highlighted in two Vocabulary Build sections in every chapter, giving students ample opportunity to expand their vocabulary. My eLab includes: Vocabulary review exercises Additional focuses: skills practice based on material from the book New content in four sections related in theme to the four chapter pairs in the book a new listening text comprehension questions vocabulary questions Vocabulary lists by chapter and AWL master list Audio and video clips for textbook listenings

Visual Leap is a how-to book for teachers, students and parents interested in making learning easier. In step-by-step fashion, it presents an effective, universal, visual method to teach students how to think independently and critically, and how to organize their ideas for any instructional purpose. The visual strategies are rooted in the science of human learning and are effective because they tap into the ways that we learn naturally. The Visual Leap method simplifies teaching the skills of the Common Core State Standards and gives teachers explicit ways to differentiate instruction to meet the needs of all learners. The strategies work across many grade levels and subject areas and for a wide variety of instructional objectives across the curriculum, such as vocabulary acquisition, reading comprehension, writing, speaking, and listening. Visual Leap offers easy ways to foster dynamic, creative, and critical thinking in the

classroom, and provides teachers and students with a toolkit of problem-solving and learning strategies designed to serve them throughout their academic and professional lives.

Traditionally, company leaders develop a business strategy based on bottom lines and profit margins, then hire an ad agency to back up that strategy with creative advertising. But history shows that some of the most effective branding campaigns are born when companies work with ad agencies to develop a business strategy that has a big, creative idea at its heart-what CEO of Euro RSCG Bob Schmetterer calls the Creative Business Idea. In Leap, Bob Schmetterer shows advertisers how to combine advertising creativity and bottom-line realities to develop winning business strategies and winning ad campaigns. He analyzes some of the most creative business ideas in history, showing how successful advertising and marketing strategies do more than simply communicate the brand-they define it. Advertisers know how to create demand for an existing brand, but Schmetterer argues that the next challenge for advertisers is to help their clients apply creative thinking to their core business strategy before they launch a branding blitz. Leap is about connecting the left brain and the right brain to develop solid business strategies that are also creative, fresh, and exciting. It's about mixing business's cold fixation on numbers with the warm heart of art and creativity to build revolutionary brands. It's about connecting with and listening to the client, understanding the business and the product, tapping into the client's passion for the product, and transmitting that passion to the consumer. It's about what happens when the business makes creativity part of its core strategy-enabling it to move beyond self-imposed boundaries and expand the limits of its reach. With a wealth of examples from Volvo to Purdue, Schmetterer shows ad agencies and managers how to help their clients develop the big, creative idea that will transform their businesses-and perhaps their industries. It's time for companies to make the Leap that synthesizes business and creativity to reap the full rewards of profitable innovation. BOB SCHMETTERER is Chairman and CEO of Euro RSCG Worldwide, a one of the world's top five global advertising and communications agencies with clients such as Intel, Peugeot, Air France, Orange, Abby National, MCI, Danone Group, Reckitt Benckiser, Volvo, and Yahoo!
