This two volume encyclopedia set focuses on the full expanse of contemporary Asian American experiences in the United States. Drawing on over two decades of research, it takes an unprecedented look at the major issues confronting the Asian American community as a whole, and the specific ethnic identities within that community -- from established groups such as Chinese, Japanese, and Korean Americans to newer groups such as Cambodian and Hmong Americans. The volumes offer 110 entries on the current state of affairs, controversies, successes, and outlooks for future for Asian Americans. The set is divided into 11 thematic sections including diversity and demographics; education; health; identity; immigrants, refugees, and citizenship; law; media; politics; war; work and economy; youth, family, and the aged. Contributors include leading experts in the fields of Asian American studies, education, public health, political science, law, economics, and psychology.

This second edition builds on the first, while making significant changes that reflect new trends in the study of American immigration history. The field was first centrally defined in the mid-twentieth century by the study of immigrants from Europe. Asians and Latinos were not considered "immigrants"--People who settled permanently in the United States. They were considered "birds of passage"--people who did not experience the same social processes of incorporation and assimilation as did Europeans. As immigration from Asia and Latin America to the United States surged in the last third of the twentieth century, scholars began to pay more attention to their experiences, both historical and contemporary. A much more diverse and inclusive portrait of the American immigration experience has emerged.

A ruthlessly honest, emotionally charged, and utterly original exploration of Asian American consciousness and the struggle to be human "Brilliant . . . To read this book is to become more human."--Claudia Rankine, author of *Citizen* FINALIST FOR THE NATIONAL BOOK CRITICS CIRCLE AWARD FOR AUTOBIOGRAPHY \* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY Jennifer Szalai, *The New York Times* \* *The Washington Post* \* NPR \* *Time* \* *New Statesman* \* BuzzFeed \* *Esquire* \* *The New York Public Library* \* Book Riot Poet and essayist Cathy Park Hong fearlessly and provocatively blends memoir, cultural criticism, and history to expose fresh truths about racialized consciousness in America. Part memoir and part cultural criticism, this collection is vulnerable, humorous, and provocative--and its relentless and riveting pursuit of vital questions around family and friendship, art and politics, identity and individuality, will change the way you think about our world. Binding these essays together is Hong's theory of "minor feelings." As the daughter of Korean immigrants, Cathy Park Hong grew up steeped in shame, suspicion, and melancholy. She would later understand that these "minor feelings" occur when American optimism contradicts your own reality--when you believe the lies you're told about your own

racial identity. Minor feelings are not small, they're dissonant--and in their tension Hong finds the key to the questions that haunt her. With sly humor and a poet's searching mind, Hong uses her own story as a portal into a deeper examination of racial consciousness in America today. This intimate and devastating book traces her relationship to the English language, to shame and depression, to poetry and female friendship. A radically honest work of art, *Minor Feelings* forms a portrait of one Asian American psyche--and of a writer's search to both uncover and speak the truth. Praise for *Minor Feelings* "Hong begins her new book of essays with a bang. . . . The essays wander a variegated terrain of memoir, criticism and polemic, oscillating between smooth proclamations of certainty and twitches of self-doubt. . . . *Minor Feelings* is studded with moments [of] candor and dark humor shot through with glittering self-awareness."--*The New York Times* "Hong uses her own experiences as a jumping off point to examine race and emotion in the United States."--*Newsweek* (40 Must-Read Fiction and Nonfiction Books to Savor This Spring) "Powerful . . . [Hong] brings together memoiristic personal essay and reflection, historical accounts and modern reporting, and other works of art and writing, in order to amplify a multitude of voices and capture Asian America as a collection of contradictions. She does so with sharp wit and radical transparency."--*Salon*

*Asian American Education--Asian American Identities, Racial Issues, and Languages* presents groundbreaking research that critically challenges the invisibility, stereotyping, and common misunderstandings of Asian Americans by disrupting "customary" discourse and disputing "familiar" knowledge. The chapters in this anthology provide rich, detailed evidence and interpretations of the status and experiences of Asian American students, teachers, and programs in K-12 and higher education, including struggles with racism and other race-related issues. This material is authored by nationally-prominent scholars as well as highly-regarded emerging researchers. As a whole, this volume contributes to the deconstruction of the image of Asian Americans as a model minority and at the same time reconstructs theories to explain their diverse educational experiences. It also draws attention to the cultural and especially structural challenges Asian Americans face when trying to make institutional changes. This book will be of great interest to researchers, teachers, students, and other practitioners and policymakers concerned with the education of Asian Americans as well as other peoples of color.

Students will become informed on and debate 8 major issues discussed in Asian American communities today.

Designed to encourage critical thinking about history, the MAJOR PROBLEMS IN AMERICAN HISTORY series introduces students to both primary sources and analytical essays on important topics in U.S. history. This collection serves as the primary anthology for the introductory survey course, covering the subject 's entire chronological span. Comprehensive topical coverage includes politics, economics, labor, gender, culture, and social trends. The fourth edition has been revised to reflect two new historiographical trends: the emergence of the history of religion as an exceptionally lively field and the internationalization of American history. Several chapters include images, songs, and poems to give students a better "feel" for the time period and events under discussion. Key pedagogical elements of the Major Problems format have been retained: 15 to 16 chapters per volume, chapter introductions, headnotes, and suggested readings.
