Making Connections | Safeguarding Training and Consultancy

Making connections is linking what the students read, to what they already know. This strategy helps students comprehend text, by activating their prior knowledge and making meaning of what they read. Debby Draper (2012) suggests questions that students may ask themselves as they read to help them make connections with the text.

Making connections is a critical reading comprehension strategy that helps students make meaning of what they are reading. When students make connections to the texts that they are reading, it helps them to make sense of what they read, retain the information better, and engage more with the text itself. Students can make connections between:

When children make connections between a book and their own lives, they feel empathy for the characters and become invested in the story. They have an easier time remembering the story when they feel a personal connection. Later, kids begin to make connections between books they've read. Eventually they'll be making connections to the world.

Bill Quirke demonstrates practically how businesses can use internal communication to achieve differentiation, to improve their quality, customer service, and innovation, and to manage change more effectively. He describes the why, the what and the how of internal communication - why business needs better communication to achieve its objectives, what internal communication needs to deliver to add value, and how organizations need to manage their communication for best results.

Meadow takes us on a Cook's tour of communication technologies across time—the alphabet and moveable type printing, cave drawings and carrier pigeons, telephones,

## Download File PDF Making The Connections 2 A How To Guide For Organic

Chemistry and, of course, the Internet. In each case, Meadow shows how these (and other devices) are connected to each other, even as they serve to make connections between people. Part One discusses the basics of communications, while Part Two delves into telecommunications before the days of steam and electricity. Part Three offers insight into steam, electricity, and internal combustion energy and how they revolutionized society. Communication is the key to a productive world. For those dazzled by the pace of change in the technology or McLuhan's unorthodox but brilliant insights, Meadow's casual style and pace provide the perfect antidote.

This title introduces first-time readers of academic text to basic reading strategies such as finding paragraph topics,

finding supporting details and learning to read quickly.

What exactly is an "assignment," and why does it matter? How can educators ensure that their teaching meets the rigorous demands of the Common Core State Standards, so that all students are well prepared for college or careers? Drawing from her extensive experience as a teacher coach, author Eleanor Dougherty answers these questions and many more, with two aims in mind: (1) to guide teachers and administrators in crafting high-quality assignments, and (2) to help educators understand the powerful impact that assignments can have on teaching and learning. The book explains the critical differences among "assignments," "activities," and "assessments" and thoroughly describes the

## Download File PDF Making The Connections 2 A How To Guide For Organic Chemistry Lab Techniques Second Edition

key elements of an assignment: prompts, rubrics, products, and instructional plans. Readers will learn how to

- \* Follow a seven-step process for crafting effective assignments;
- \* Link assignments to units and courses;
- \* Devise "Anchor" assignments for collaboration and consistency across grades;
- \* Tap into instructional "touchstones" that can enrich any assignment;
- \* Create classroom and school environments that support assignment-making; and
- \* Use assignments as a source of data about teaching and learning.

Equipped with the knowledge and expertise gained from *Assignments Matter*, readers will be able to create meaningful learning experiences for their students and come to appreciate the author's belief that "assignments may well be the missing link in school reform efforts to improve student achievement."

Making Connections teaches an extensive range of reading skills and strategies in order to prepare students for college reading. The current series takes students from a low-intermediate to a low-advanced level of academic reading skill proficiency. In December 2015 two new levels - high beginning and advanced - will be added to the series. The

## Download File PDF Making The Connections 2 A How To Guide For Organic Chemistry Lab Techniques Seventh Edition

series contains a strong focus on vocabulary-building, including teaching words from the Academic Word List. It emphasizes critical thinking and increased reading speed. The series has a unique unit structure. At the outset of each unit, students are presented with and practice key reading and vocabulary-building skills. As students read the texts following these sections, they apply these skills by completing exercises in boxes in the margins of the readings, so that students literally have to apply the newly-learned skills 'while reading.'
