The Crimean War was a large scale human tragedy , with over 650,000 fatalities. There was a year long siege, a series of incompetent military decisions by the British High Command ,such as the ludicrous Charge of the Light Brigade and a number of large scale, bloody battles at Alma, Balaklava and Inkerman, while Florence Nightingale's activities at Scutari make for an interesting sub-plot.

Ponting is concerned with rescuing the Crimean War from the popular impression of a minor conflict. As he points out, this was arguably the largest European war between the Napoleonic wars and WWI. It involved most of the major European powers and some minor powers, had a global scope with combat in the Black and Baltic Seas and even in the Pacific, and involved large casualties with an estimated 650,000 deaths.

The Crimean War was the most destructive conflict of Queen Victoria's reign, the outcome of which was indecisive; most historians regard it as an irrelevant and unnecessary conflict despite its fame for Florence Nightingale and the Charge of the Light Brigade. Here Hugh Small shows how the history of the Crimean War has been manipulated to conceal Britain's - and Europe's - failure.

The Crimean War was the last in which this practice was permitted. According to historian Helen Rappaport, somewhere between 750 and 1200 women went to the Crimean War in this capacity - compared to fewer than 250 who served in the formal nursing arrangements led by Florence Nightingale.

The Crimean War is full of resonance - not least, the Charge of the Light Brigade, the Siege of Sevastopol and Florence Nightingale at Scutari with her lamp. In this fascinating book, Clive Ponting separates the myths from the reality, and tells the true story of the heroism of the ordinary soldiers, often through eye-witness accounts of the men who fought and those who survived the terrible winter of 1854-55. To contemporaries, it was 'The Great War with Russia' - fought not only in the Black Sea and the Crimea but in the Baltic, the Arctic, the Pacific and the Caucasus. Ironically, Britain's allies were France, her traditional enemy, ably commanded (from home) by Napoleon III himself, and the Muslim Ottoman Empire, widely seen as an infidel corrupt power. It was the first of the 'modern' wars, using rifles, artillery, trench systems, steam battleships, telegraph and railways; yet the British soldiers wore their old highly coloured uniforms and took part in their last cavalry charge in Europe. There were over 650,000 casualties. Britain was unable fully to deploy her greatest strength, her Navy, while her Army was led by incompetent aristocrats. The views of ordinary soldiers about Raglan, Cardigan and Lucan make painful reading.

By the award-winner of News International Journalist of the Year, Phillip Knightley has written about being a special correspondent during wartime. He questions to what extent correspondents shape myths and suppress facts? And how their role has changed over the years.

"The most comprehensive j'accuse of journalism as propaganda in the English language... Ought to be read by every young reporter and by those who retain pride in our craft of truth-telling, not matter how unpopular or unpalatable the truth." -- John Pilger, from the Preface to the new edition "The first casualty when war comes, is truth," said American Senator Hiram Johnson in 1917, and in his gripping, now-classic history of war journalism, Phillip Knightley shows just how right Johnson was. From William Howard Russell, who described the appalling conditions of the Crimean War in Times [London], to the ranks of reporters, photographers, and cameramen who captured the realities of war in Vietnam, *The First Casualty* tells a fascinating story of heroism and collusion, censorship and suppression, myth-making and propaganda. Since Vietnam, Knightley finds, governments have become much more adept at managing the media, and in new chapters on the Falklands, the Gulf War, and the former Yugoslavia, he concludes that the war correspondent's role as a seeker of truth is now in jeopardy. From reviews of the first edition: "[This book] may make us all a little more free to talk about and find the

truth." -- Garry Wills, New York Times Book Review "Disturbing, even dismaying, yet also in its painful way, enormously entertaining." -- New Yorker

"The first casualty when war comes, is truth," said American Senator Hiram Johnson in 1917. In his gripping, now-classic history of war journalism, Phillip Knightley shows just how right Johnson was. From William Howard Russell, who described the appalling conditions of the Crimean War in the Times of London, to the ranks of reporters, photographers, and cameramen who captured the realities of war in Vietnam, *The First Casualty* tells a fascinating story of heroism and collusion, censorship and suppression. Since Vietnam, Knightley reveals, governments have become much more adept at managing the media, as highlighted in chapters on the Falklands War, the Gulf War, and the conflict between NATO and Serbia over Kosovo. And in a new chapter on the post-9/11 wars in Afghanistan and Iraq, Knightley details even greater degrees of government manipulation and media complicity, as evidenced by the "embedding" of reporters in military units and the uncritical, openly patriotic coverage of these conflicts. "The age of the war correspondent as hero," he concludes, "appears to be over." Fully updated, *The First Casualty* remains required reading for anyone concerned about freedom of the press, journalistic responsibility, and the nature of modern warfare.

Florence Nightingale is famous as the "lady with the lamp" in the Crimean War, 1854—56. There is a massive amount of literature on this work, but, as editor Lynn McDonald shows, it is often erroneous, and films and press reporting on it have been even less accurate. *The Crimean War* reports on Nightingale's correspondence from the war hospitals and on the staggering amount of work she did post-war to ensure that the appalling death rate from disease (higher than that from bullets) did not recur. This volume contains much on Nightingale's efforts to achieve real reforms. Her well-known, and relatively "sanitized", evidence to the royal commission on the war is compared with her confidential, much franker, and very thorough *Notes on the Health of the British Army*, where the full horrors of disease and neglect are laid out, with the names of those responsible.

On the 150th anniversary of the world's most famous cavalry charge comes a revisionist retelling of the battle based on firsthand accounts from the soldiers who fought there. In October 1854, with the Crimean War just under way and British and French troops pushing the tsar's forces back from the Black Sea, seven hundred intrepid English horsemen charged a mile and a half into the most heavily fortified Russian position in the Crimea in Ukraine. In the seven minutes it took the cavalry to cross this distance, more than five hundred of them were killed. Celebrated in poetry and legend, the charge of the Light Brigade has stood for a century and a half as a pure example of military dash and daring. Until now, historical accounts of this cavalry charge have relied upon politically motivated press reports and diaries kept by the aristocratic British generals who commanded the action. In *Hell Riders*, noted historian and Crimean War expert Terry Brighton looks, for the first time, to the journals recorded by survivors—the soldiers who did the fighting. His riveting firsthand narrative reveals the tragically inept leadership on the part of the British commander in chief, Lord Raglan, whose orders for the

charge were poorly communicated and misinterpreted, and an unfathomable indifference on the part of British officers to the men who survived the battle and were left to tend their wounds and bury the dead in the freezing cold. While the charge overran the Russians, it gained nothing and the war continued for another two years. In finally capturing the truth behind the charge of the Light Brigade, Brighton offers a stirring portrait of incredible bravery in the service of a misguided endeavor.

The Crimean War was the most destructive conflict of Queen Victoria's reign, the outcome of which was indecisive; most historians see it as an irrelevant, unnecessary conflict despite Florence Nightingale and the Charge of the Light Brigade. Here Hugh Small shows how the history of the Crimean War has been manipulated to conceal Britain's—and Europe's—failure. The war governments and early historians combined to withhold the truth from an already disappointed nation in a deception that lasted over a century. Accounts of battles, still widely believed, gave fictitious leadership roles to senior officers. Careful analysis of the fighting shows that most of Britain's military successes in the war were achieved by the common soldiers, who understood tactics far better than the officer class and who acted usually without orders and often in contravention of them. Hugh Small's mixture of politics and battlefield narrative identifies a turning point in history, and raises disturbing questions about the utility of war.

First published in the year 1857, the present book 'Wonderful Adventures of Mrs. Seacole in Many Lands' was written by Mary Seacole. As evident from the title, this is a fictional novel of women's adventures.

Please note that the maps available in the print edition do not appear in the ebook. From "the great storyteller of modern Russian historians," (Financial Times) the definitive account of the forgotten war that shaped the modern age The Charge of the Light Brigade, Florence Nightingale—these are the enduring icons of the Crimean War. Less well-known is that this savage war (1853-1856) killed almost a million soldiers and countless civilians; that it enmeshed four great empires—the British, French, Turkish, and Russian—in a battle over religion as well as territory; that it fixed the fault lines between Russia and the West; that it set in motion the conflicts that would dominate the century to come. In this masterly history, Orlando Figes reconstructs the first full conflagration of modernity, a global industrialized struggle fought with unusual ferocity and incompetence. Drawing on untapped Russian and Ottoman as well as European sources, Figes vividly depicts the world at war, from the palaces of St. Petersburg to the holy sites of Jerusalem; from the young Tolstoy reporting in Sevastopol to Tsar Nicolas, haunted by dreams of religious salvation; from the ordinary soldiers and nurses on the battlefields to the women and children in towns under siege.. Original, magisterial, alive with voices of the time, The Crimean War is a historical tour de force whose depiction of ethnic cleansing and the West's relations with the Muslim world resonates with contemporary overtones. At once a rigorous, original study and a sweeping, panoramic narrative, The Crimean War is the definitive account of the war that mapped the terrain for today's world..
