Looking North, Looking South brings together the work of leading China, Taiwan, and Pacific politics specialists to analyse a topic of growing importance: China and Taiwan's ever-growing involvement in the South Pacific. China is on the rise in Asia, Africa, South America, the Caribbean, even Antarctica and the Arctic. China's activities in the South Pacific are part of this rise. Looking North, Looking South locates China's involvement in the South Pacific within the context of China's wider foreign policy and

## Download Ebook The Dragon Looks South China And Southeast Asia In The New

the challenges it poses to the traditional dominant powers of the region. The China-Taiwan rivalry has helped to seriously alter the balance of traditional influence in the South Pacific. China is now one of the largest aid donors in the region, squeezing out Australia, New Zealand, and the United States both in terms of funding and influence.

Southeast Asia is arguably the most diverse region in the world. Accordingly, rather than addressing one list of questions, the contributors to this volume have--as experts

# Download Ebook The Dragon Looks South China And Southeast Asia In The New

Century. The book explores the matters they see as most important and most deserving of exploration and exposure. After the editor's introduction, the chapters proceed in pairs. Each pair and a closing chapter cover a distinctive theme in Southeast Asia's interactions with China. Featured among the historical and economic contexts needed to understand the interactions are security and development as Chinese goals and how diversified beyond China Southeast Asia's trading partners are. Southeast Asian and Chinese perceptions of each other are examined using survey research

Century. By asking whether China views the region as its "strategic backyard." Two actual or intended expansions are analyzed: expanded Chinese sovereignty over the South China Sea and Beijing's interest in using "overseas Chinese" to expand its influence in the region. The chapters on strategies lay out the very different ways of approaching China preferred by Singapore and Indonesia. Rather than documenting the obvious inequalities of size and power between China on the one hand and Cambodia and Laos on the other, the essays on disparities show how relations with China interact with asymmetries inside these

## Download Ebook The Dragon Looks South China And Southeast Asia In The New

two states. Policy implications of differing distances are drawn in the pieces on how Southeast Asia's proximity to China affects the prospect of Chinese regional dominance as compared with far-off America's role and as seen through the lens of Beijing's far-flung Maritime Silk Road. A final chapter on a seventh theme features a Myanmar analyst's retrospection on myths and illusions that have arisen to cloud how that country's relations with China are interpreted, with possible implications for understanding Sino-Southeast Asian dealings with China more broadly.

China's rise has upset the global balance of power, and the first place to feel the strain is Beijing's back yard: the South China Sea. For decades tensions have smoldered in the region, but today the threat of a direct confrontation among superpowers grows ever more likely. This important book is the first to make clear sense of the South Sea disputes. Bill Hayton, a journalist with extensive experience in the region, examines the high stakes involved for rival nations that include Vietnam, India, Taiwan, the Philippines, and China, as well as the United

# Download Ebook The Dragon Looks South China And Southeast Asia In The New

States, Russia, and others. Hayton also lays out the daunting obstacles that stand in the way of peaceful resolution. Through lively stories of individuals who have shaped current conflicts—businessmen, scientists, shippers, archaeologists, soldiers, diplomats, and more—Hayton makes understandable the complex history and contemporary reality of the South China Sea. He underscores its crucial importance as the passageway for half the world's merchant shipping and one-third of its oil and gas. Whoever controls these waters controls the access between Europe, the Middle East, South

Asia, and the Pacific. The author critiques various claims and positions (that China has historic claim to the Sea, for example), overturns conventional wisdoms (such as America's overblown fears of China's nationalism and military resurgence), and outlines what the future may hold for this clamorous region of international rivalry.

A timely look at the impact of China's booming emergence on the countries of Southeast Asia Today, Southeast Asia stands uniquely exposed to the waxing power of the new China. Three of its nations border China

and five are directly impacted by its claims over the South China Sea. All dwell in the lengthening shadow of its influence: economic, political, military, and cultural. As China seeks to restore its former status as Asia's preeminent power, the countries of Southeast Asia face an increasingly stark choice: flourish within Beijing's orbit or languish outside of it. Meanwhile, as rival powers including the United States take concerted action to curb Chinese ambitions, the region has emerged as an arena of heated strategic competition. Drawing on more than a decade of on-the-ground experience, Sebastian

Century  
Strangio explores the impacts of China's rise on Southeast Asia, the varied ways in which the countries of the region are responding, and what it might mean for the future balance of power in the Indo-Pacific.

Studies of the escalating tensions and competing claims in the South China Sea overwhelmingly focus on China and its increasingly assertive approach, while the position of the other claimants is overlooked. This book focuses on the attitude of Vietnam towards the South China Sea dispute. It examines the position from a

## Download Ebook The Dragon Looks South China And Southeast Asia In The New

historical perspective, shows how Vietnam's position is affected by its wish to maintain good relations with China on a range of issues, and outlines how Vietnam has occasionally made overtures to both the United States and Japan in order to bolster its position, and considered the possibility, so far resisted, of taking China to formal arbitration under the auspices of the United Nations Convention on the Law of the Sea. The book concludes by assessing the future prospects for Vietnam's position in the dispute.

## Download Ebook The Dragon Looks South China And Southeast Asia In The New

Blue Dragon - Reckoning in the South China Sea, an account of the effort by Mobil to return to Vietnam, is a behind the scenes account of a politically sensitive oil project that many believed would be a key to the political balance of power in the South East Asia.

One hundred years before Columbus and his fellow Europeans began their voyages of discovery, fleets of giant junks commanded by the eunuch admiral Zheng He and filled with the empire's finest porcelains, lacquerware, and silk ventured to the world's "four

corners." Seven epic expeditions brought  
China's treasure ships across the China Seas  
and Indian Ocean, from Japan to the spice  
island of Indonesia and the Malabar Coast of  
India, on to the rich ports of the Persian  
Gulf and down the East African coast, to  
China's "El Dorado," and perhaps even to  
Australia, three hundred years before Captain  
Cook's landing. It was a time of exploration  
and expansion, but it ended in a retrenchment  
so complete that less than a century later,  
it was a crime to go to sea in a multimasted  
ship. In *When China Ruled the Seas*, Louise  
Levathes takes a fascinating and

## Download Ebook The Dragon Looks South China And Southeast Asia In The New

unprecedented look at this dynamic period in China's enigmatic history, focusing on the country's rise as a naval power that briefly brought half the world under its nominal authority. Drawing on eyewitness accounts, official Ming histories, and African, Arab, and Indian sources, many translated for the first time, Levathes brings readers inside China's most illustrious scientific and technological era. She sheds new light on the historical and cultural context in which this great civilization thrived, as well as the perception of China by other contemporary cultures. Beautifully illustrated and

Download Ebook The Dragon Looks South  
China And Southeast Asia In The New  
engagingly written, When China Ruled the Seas  
is the fullest picture yet of the early Ming  
dynasty—the last flowering of Chinese culture  
before the Manchu invasion.
