THE night-time economy and events sectors in Bournemouth, Christchurch and Poole are facing financial ruin, permanent closures and job losses because of the coronavirus pandemic.

Night time sector facing ruin due to coronavirus pandemic ...

Night or nighttime (also spelled night-time or night time) is the period of ambient darkness from sunset to sunrise during each 24-hour day, when the Sun is below the horizon. The exact time when night begins and ends (equally true with evening) depends on the location and varies throughout the year. When night is considered as a period that follows evening, it is usually considered to start ...

Night Sky Map & Planets Visible Tonight - Time and Date

Before dawn, with just enough light to see by, James Dorey and his colleagues went searching for bees. This might sound like a futile exercise, since most bees are sleeping rather than finding food when it's dark out; low light dulls the colour of flowers, and night-time produces cooler temperatures. But at least a few bees have bucked the trend.
